

Worcester County Sheriff's Office
Sheriff Guy W. Glodis
Triad House Numbering Program

Town of Athol, Massachusetts

- This program is designed to assist all emergency personnel in identifying residences that do not have a numbered address on their homes.
- Our Community Service Department along with our inmates will create custom wooden signage with numbers. These will then be placed on the front of the home/end of driveway.
- Residents will opt for one or two signs depending on need.

Please check one: I need one (1) sign [house visible from street] _____
I need two (2) signs [house NOT visible from street] _____

Please print your name and address on the lines below to install on your home. *[By your signature, you agree to waive, release and hold harmless the Worcester County Sheriff's Office, the Town of Athol and all its affiliates with this program, from damages that may arise from installation of signage.]*
